

## WHAT THE PRINCIPLES OF LIFE TELL US

Our starting point is the \_\_\_\_\_, the \_\_\_\_\_. God knows all truth.

**Today's Myth:** Creation is supported by \_\_\_\_\_ and not \_\_\_\_\_. Evolution is supported by \_\_\_\_\_ and not \_\_\_\_\_.

### Getting clear on our terms:

- \_\_\_\_\_ - a fundamental, primary, general law or fact from which others are derived. Proved and observed.
- \_\_\_\_\_ - a proposed explanation whose status is still conjectural.
- \_\_\_\_\_ - data exists in the present, testable, repeatable, quantifiable.
- \_\_\_\_\_ science – best explanation of how the observational science data came to be.

**Today's Point:** Ask yourself, "Which \_\_\_\_\_ explanation best fits the data?"

1. **Law of \_\_\_\_\_.** "Every material effect must have an adequate antecedent or simultaneous cause."

Dr. Albert Einstein's Theory of Relativity is supported by evidence indicating that the universe is \_\_\_\_\_, which implies a point of \_\_\_\_\_.

***"In the beginning, God created the heaven and the earth."*** Gen. 1:1

2. **Law of \_\_\_\_\_.** *Is the mathematical probability of life better supported by chance or design?*

- Astronomy: Gravity
- Biology: Complexity of single living cell
- Microbiology : Structure of DNA

***Which explanation best fits the data?***

Isaiah 45:5-12

***"I, the LORD, created you and formed your nation. ... don't be afraid. I have rescued you. I have called you by name; now you belong to Me."*** Isaiah 43:1
